# THE SKILLS *YOU* NEED TO BE A FRONT-END WEB DEVELOPER

Now that you've read about what it takes to become a front end web developer, here is a quick checklist of the skills you need.

## ESSENTIAL FRONT END SKILLS

- ❏ HTML

- ❏ CSS

- ❏ JavaScript/jQuery

## CSS FRAMEWORKS

Learn one to start.

- ❏ Bootstrap

- ☑ Foundation

## CSS TOOLS

- ❏ Responsive design principles

- ❏ Preprocessors - learn one to start

  - ❏ Sass

❏ Less

❏ Stylus

## JAVASCRIPT FRAMEWORKS

Learn one to start.

❏ Angular.js

❏ Backbone.js

❏ React.js

❏ And others

## NICE-TO-HAVES

❏ Git/Github know-how

❏ Unit testing

    ❏ Jasmine

    ❏ Karma

❏ Package management: Bower

❏ Task runners

    ❏ Grunt

    ❏ Gulp

❏ JavaScript module loaders

    ❏ Require.js

    ❏ Browserify

While this may look like a lot to learn, remember that you can land a job as a front end developer or freelance knowing only the essentials—HTML, CSS and JavaScript.
